

LIFE 12 ENV/IT/000834 MED HISS

Final Workshop

Use of public databases to estimate the health effects of air pollution exposure

PRBB, [CREAL](#) , Xipre room - 1st floor

June 16th 2016

13:15 - 14:00 Welcome

14:00 - 14:15 General introduction

14:15 - 15:15 Results of LIFE MED-HISS project. Feasibility of using National Health Surveys to estimate the long-term effects of air pollution exposure on health in 4 European Countries (Spain, Italy, France, Slovenia).

Xavier Basagaña - CREAL

15:15 - 15:30 Break.

15:30 - 16:00 Estimation of long-term effects of air pollution exposures using data from electronic health records in primary cares (SIDIAP).

Mireia Gascón - CREAL

16:00 - 16:30 Estimation of the short-term effects of air pollution exposure using the registries of mortality and hospital admissions.

Bénédicte Jacquemin – CREAL

16:30 - 17:00 Discussion
